TELEGRAPHIC BREVITIES.

The Suez canal is blockaded by the grounding of a large steamer.

A loss of \$250,000 was sustained at St. Louis last night by the burning of Drummond's tobacco warehouse.

The smelters in the crucible steel works at Pittsburg threaten to strike unless their wages are advanced 15 per cent.

The Italian Chamber of Deputies yesterday voted \$1,000,000, to enable the Government to send reinforcements to Egypt.

A move is being made in the English House of Commons to stop the publication of the indecent proceedings in divorce cases.

In the Reform school fire at Rochester, N. Y., Mrs. P. J. Vanhoven was burned to death. She was employed in the laundry.

There was a wild panic in the London Stock Exchange yesterday, and toward the close of the session the dealers refused to fix prices.

The forthcoming issue of the Standard, Henry George's new paper, will contain the reply of Father McGlynn, the deposed Catholic priest.

Parnell's malady is reported to be Bright's disease, and in the event of his enforced retirement, Healy will probably succeed him as the leader of the Irish party.

At Jersey City last evening during a riot, the strikers attacked the Italians at the Erie railway dock, but were repulsed by the police officers after a savage onslaught with clubs, in which many were injured.

Truckee Items.

The Republican of the 2d says: An effort is to be made the coming spring to 'boom' Lake Tahoe and thus make this beautiful place a noted health and pleasure resort, second to none on the coast.

It seems to be pretty well settled that Andy Kershner, the shingle man, whose sudden disappearance was noted some time ago, has absconded leaving many creditors to mourn. The Reno bank is said to be the chief sufferer. His present whereabouts is unknown.

Last Monday, Joseph Mc Elroy was plowing ice on the pond of the Tahoe Ice Company. In some way he slipped and fell under the horse that he was leading. The animal planted one of his feet squarely on the side of the fallen man's head, cutting the face badly and one of the sharp cauls of the shoe penetrated the skull. He was brought to town and attended by Dr. Curless, who dressed the wound and the patient is getting along nicely and will soon be able to be around again.

What True Merit Will Do.

The unprecedented sale of "Booshee's German Syrup" within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of coughs, colds and the severest lung troubles. It acts on an entirely different principle from the usual prescriptions given by physicians, as it does not dry up a cough and leave the disease still in the system, but on the contrary, removes the cause of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctors' bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cents, large bottles.

Resumed Practice.

Dr. W. D. Wagar has so far recovered from his protracted illness as to be able to resume his profession as a dentist at his old rooms in the Sunderland building.

CATARRH CURED, health and sweet breath secured, by Shiloh's Catarrh Remedy. Price 50 cents; Nasal Injector free. For sale by Osburn & Shoemaker.

SHILOH'S Cough and Consumption Cure is sold by us on a guarantee. It cures Consumption. Sold by Osburn & Shoemaker.

The Late Wind Storm.

Virginia City seems to have received most of the heavy wind storm that visited this section of the country, Tuesday and Wednesday. Great damage was done to roofs, and the walls of several houses were blown in business signs and chimneys were carried away, and a lively time had generally.

A Sad Case of Poisoning.

That of any man or woman afflicted with disease or derangement of the liver, resulting in poisonous accumulations in the blood, serious affections, sick-headache, and disease of the kidneys, lungs or heart. These troubles can be cured only by going to the arm of nature and putting a silver in a healthy condition. To accomplish this result, speedily and easily, nothing has proved itself so efficacious as Dr. F. C. Wagar's "Golden Medical Discovery," which has never failed to do the work claimed for it, and never will.

What can be more disagreeable, more disgusting, and to sit in a room with a person who is troubled with a cough and keep coughing and clearing his or her throat of the mucus which drops into the room? Such persons are always to be pitied if they try to cure themselves and fail. But if they get Dr. Wagar's Catarrh Remedy, there need be no cure.

Rupture is a deadly curd, also pleurisy and asthma. Pamphlet of particulars 25 cents in stamp. Write to the Medical Association, 100 New York.

Harper's Young People.

AN ILLUSTRATED WEEKLY.

HARPER'S YOUNG PEOPLE has been called "the model of what a periodical for young readers ought to be," and the justice of this commendation is amply sustained by the large circulation it has attained both at home and in Great Britain. This success has been reached by methods that must commend themselves to the parents, no less than the taste of the children—namely, by an earnest and well sustained effort to provide the best and most attractive reading for young people at a low price. STATE OFFICERS SALARIES

The Supreme Court decides that the salary law of 1885 is unconstitutional. This is good news, not only to the office-holders but to the whole people. There were in the last Legislature a few demagogues with neither principle nor judgment, who proposed the cutting down of salaries of State officers. As it was, some of these officers received scarcely a living salary. No matter; in an over-zealous desire for glory the crusade went on. However, by reason of the blunders of these stupid and self-assumed friends of the people and by the intervention of the Supreme Court, the salaries of our present officers will remain as heretofore. When in the legislature a member who has neither the disposition nor the brains to conceive and put into operation some great scheme to improve the condition of the masses, but who for self-glory makes a raid on poorly paid public officers, such a demagogue should be advertised as like an enemy of the people and their servants. A mad dog legislator that bites and poisons whatever happens to be within his reach should be killed. The law of two years ago, reducing the salaries so low that the incumbents could not live without stealing, was even with the people an unpopular measure, and the statesmen who drafted the law and urged its passage are not likely to repeat similar legislation at this session.

Mr. Pike of Churchill has introduced into the Assembly a bill allowing as many as five owners of cattle or horses, which run at large in this State, to petition the Board of County Commissioners to appoint a "Round-up" Commissioner, whose duty it shall be to arrange the programme for all annual round-ups in his county. Said Commissioner may also appoint foremen of the different round-ups, whose duty shall be to search each range and see that justice be done the different owners of cattle and horses. He will also see that a neighbor's branding iron does not get on a calf or mare before the owner's gets there. Though this bill will be of great help to stockmen in effecting definite round-ups, it will not prevent the red-hot iron on the end of a lariat from whizzing through the air and leaving its imprint on the frisky yearling.

The President has signed the Mexican pension bill. Every person living who took any part at all in the Mexican war is to be pensioned. It includes even those who did no active service, but who enlisted and might have seen a five service had not peace been concluded. Forty years have elapsed since that war, many of the Mexican veterans are decrepit and in poverty, and this recognition of their services, even at this late day, is most worthily bestowed. It is estimated that there are in this State not fewer than one hundred and fifty of these war veterans who will be included in this new list of pensioners.

The friends of the bill for the establishment of a State Industrial School should read that part of the proposed city charter of San Francisco relative to a similar school in that city, a full text of which charter was published in Wednesday's San Francisco Chronicle.

Our Washoe delegation is to be commended for their successful efforts in passing a bill (Alt's) through the Legislature appropriating \$10,000 for our State Agricultural Society.

The Lent, a joint shaft between the Bodie and Mono mines at Bodie, California, will be down to-day nine hundred feet.

The meagerness of our telegraphic report to-day must again be charged to the storm along the line.

An Apparent War Feeling at Washington.

EDUCATING THE APACHES

Evarts on U. S. Senators as Railroad Attorneys.

WYOMING RANGE STOCK

A Proposition to Abolish the Surveyor Generals.

(PRESS DISPATCHES TO THE GAZETTE)

Appertaining to Indian Schools.

WASHINGTON, February 4.

The response of the Secretary of the Interior to Senate resolution calling for information regarding the Apaches at Fort Marion, Florida, shows that all of the youths among these Indians, between the age of 12 and 22 years, numbering 42, have been transferred to and placed under educational and industrial training at Carlisle, Penn., and that upon the recommendation of officers of the army in charge of the confined Indians, provision has been made for the education of 60 of the younger children by the Sisters of Charity at Augustine, Florida, at an expense of \$75 each per quarter. The reply is accompanied by a communication by Dr. C. B. Agnew of Florida, asking that the department erect school buildings for the education of all the Apaches, and offering in the name of the "St. Augustine Indian Aid Society," to procure teachers for the school free of cost. The reply of the department to these communications is also submitted and shows grave doubts as to the advisability of pursuing this course, and that the department had no authority to expend money for the erection of the buildings desired.

A Corrupt Body.

SANTA FE, February 4.

In the Territorial Legislature here yesterday the House, by a vote of 14 to 10, decided by a resolution, in favor of the two Democratic members from Taos county, whose seats were contested by Republicans. Three Republicans voting with Democrats. It is reported that Sanchez, Republican, who voted with the Democrats, was taken out to the penitentiary yesterday to see his friend Dubois, who is confined there, and a specific promise was made to him that Dubois would be released if he would vote with the Democrats in this contest. It is openly charged and talked on the streets that money was freely used to secure the votes of Kuchenbacker and Marcy the other two Republicans who voted with the Democrats.

Looks Like War.

CHICAGO, February 4.

An Inter-Ocean Milwaukee special says: Railroad companies having headquarters in Milwaukee have recently made out, by request of the War Department, a list of their rolling stock and a statement of their ability to convey troops to points on their lines. These statements were sent on to the War Department at Washington.

WASHINGTON, February 4.

In the Senate, Evarts introduced a bill for the purchase of John Ericsson's "Destructor" and ten enlarged steel steam vessels of the same type for defending the harbors of the United States, and appropriating \$112,000 and \$2,000,000 for these purposes respectively.

R. R. Attorneys in Congress.

WASHINGTON, February 3.

U. S. Senator Evarts addressed the Senate to-day in opposition to the bill prohibiting members of Congress from acting as attorneys for subsidized R. R. Companies. He favored the amendment which permitted the engagement of members in Congress as attorneys for R. R. Companies in suits in which the United States is not a party, stating that because a lawyer is a legislator, he should not be debarred honest employment. Senate adjourned without action.

A New Departure.

WASHINGTON, February 3.

In the Legislative, Executive and Judicial Appropriation bill, reported to the House to-day, it is provided that on and after July 1, 1888, all of the offices of Surveyor General shall be abolished, and the records of the offices turned over to the Commissioner of the General Land Office, who is charged with the performance of all duties now performed by Surveyor Generals, under direction of the Secretary of the Interior.

Range Stock Doing Well.

CHEYENNE, February 4.

Reports more or less sensational, have gone abroad that the present winter has been a severe one on range cattle, and that the losses in Wyoming have been more than an average of

past years. Your correspondent has taken some pains to ascertain the facts regarding the matter, and has interviewed a number of gentlemen who are largely interested in cattle and whose herds range at widely separated portions of Wyoming and Dakota. All reports agree that so far as this Territory and Southern Dakota are concerned, the range cattle business has suffered no unusual loss during the present season. Should the spring be as favorable as the winter has been the season will close with a remarkably small loss. Up to the present the range cattle have wintered remarkably well, and native stock is in better condition than is usual at this season of the year.

Detectives Mortally Wounded.

PITTSBURG, February 4.

Last night detectives Hoehe and Hurligan of Cleveland left here having in charge Harry McMann, charged with complicity in an extensive fur robbery in that place, amounting to \$10,000. When the train reached Alliance, Ohio, five men got aboard, and when Ravenna was reached they made a concerted attack on the detectives, with the view of rescuing the prisoner. A desperate fight ensued, and one of the detectives, Hurligan, received seven bullet wounds, and Hoehe five. Some of the assailants were also wounded. The rescuers succeeded in escaping with McMann. Both detectives were brought to Cleveland. They are still living, but are not expected to recover.

Pleuro-Pneumonia.

WASHINGTON, February 4.

Swinburn's amendment that diseased cattle be quarantined instead of being destroyed, and destroyed only for scientific purposes, was agreed to. A further amendment that owners be allowed one-half the value of animals slaughtered under the provisions of this act, was also agreed to.

The Carson Mint.

WASHINGTON, February 3.

In the appropriation bill reported to the House to-day no provision is made for operating the Mint at Carson, Nevada, but \$12,000 is appropriated for the custody of the building.

WESTERN DISPATCHES

State Capital News.

CARSON, February 4.

(Special to the Gazette.) Judge Wm. Webster and Captain Bragg of Reno, arrived this morning as a committee of the Masonic fraternity, to take charge of the body of Jerry Schooling. Both Houses adjourned this morning till Monday, out of respect for the deceased. Great regret is expressed on all sides at his sudden demise. The majority of the Legislature will attend the funeral at Reno Sunday. The remains will arrive in Reno to-night.

In the Assembly, prior to adjournment, resolutions thanking Senator Jones for the interest he manifested in the viticultural industries of California, were passed, only three, Pike, Beebe and Twiss, voting in the negative. Senator Westerfield manifested much favorable interest in the matter.

The Masonic fraternity of Carson will accompany Mr. Schooling's remains in a body to the depot this evening, and a committee of the same will go with them to Reno. Judge Webster and Captain Bragg informs the GAZETTE that the funeral will take place from Masonic Hall, Reno, on Sunday afternoon at 1 o'clock, and all friends of the deceased are invited to attend.

Declared Unconstitutional.

OLYMPIA, February 4.

The Supreme court yesterday decided the Act granting suffrage to women in this Territory as unconstitutional. The bill passed the Legislature in 1885, and women have voted ever since.

Killed by a Snow-Slide.

SALT LAKE, February 4.

The news is received here that O. R. Putney was killed in a snow-slide at Bay Horse, Idaho. His brother, who is in Los Angeles, is a personal friend of ex-Governor Adams of Nevada.

FOREIGN DISPATCHES

The Sudan Affair.

PARIS, February 4.

The Republic Francaise publishes dispatches from Suez, stating that in the battles between Abyssinians and Italians near Massow, on January 25th, the Abyssinians captured all the guns possessed by the Italians, and also says that of the 680 Italians engaged in the fight not more than 50 escaped. The dispatch adds that the Italians have evacuated their advantageous positions, and the Abyssinians had already attacked and carried the first line of Italian entrenchments around Massowah. The latter successes were achieved by the Abyssinians the day after the destruction of the Italian forces in the field. The latest intelligence indicates that it is doubtful whether the Italians will be able to hold Massowah until the arrival of reinforcements.

Nevada's Cadet.

GEORGE E. STOCKLE, Nevada's

West Point cadet, is said to have creditably passed his January examination. About 40 other cadets were dismissed for deficiency.

Change in Federal Officers.

The U. S. Land Office is to be moved from Bodie to Independence. Dr. D. Walker, present Land Register, passed through Reno last evening on his way to San Francisco, to be gone five or six days. On his return to Bodie he will be succeeded by J. W. P. Laird, who is now there awaiting the former's return. At the same time that Dr. Walker turns his office over to Mr. Laird, Receiver of U. S. Moneys J. Cody, will turn over the papers of his office to his successor, E. Shutz.

The Sweetwater Mines.

A. J. Bevin, a mining expert, and Wm. Watson a capitalist from Chicago, passed through Reno a day or two ago on their way to examine, at Sweetwater, a series of mines owned by Alex. Kilpatrick, formerly of Virginia City. They will inspect the mines to-day, and if they think favorably of them will with a force of men commence operations thereon at an early day. If the sale be made it is understood that Mr. Kilpatrick will receive a snug fortune for his interest.

Biennial Report of the Secretary of State.

We have received from Secretary of State Dornier a copy of his biennial report for 1885-86. An Opportunity to Secure

200 LOTS FOR SALE

The manager of the Lake estate, in order to enhance the value of the property of the estate, as well as assist in

Building Up the Town of Reno

Has determined to offer two hundred fine building lots for sale, some of which are situated in the central part of town, and are very desirable for business purposes. The proposed site for homes is immediately south of the Truckee river, and its elevation affords a magnificent view of the mountains in the distance, and the valley and town near at hand. A more perfect place for an elegant home could not be selected. The soil is good and an abundant supply of water will be sold with each lot. The health of the locality cannot be questioned, as its elevation assures a perfect system of sewerage. Gas mains will be laid through the streets free of cost, for the benefit of those desiring to use them. It is also intended by the owners to lay out a park on the south side of the Truckee river, covering 20 acres, in which the public may enjoy the pleasure of driving, fishing and boating.

The educational advantages of Reno are well known, and the business prospects of the town are assured beyond a doubt. Purchasers of these lots may feel confident that the best of terms will be offered, and they will be fairly dealt with. For further particulars, address

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicine prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 32 cents. At all drug stores, J. J. Mack & Co., proprietors.

RESUME OF STATE OFFICIALS. Some Facts from the Homographic Chart.

CARSON, February 3.

Editor Gazette—You corresponded in looking over the pages of the homographic chart, recently prepared by that versatile editor and oft-quoted proprietor of the Carson Appeal, Sam Davis, discovered the following very interesting facts: That there are 24 foreigners and 88 native Americans holding offices to-day in the State of Nevada.

The Governor, Lieutenant Governor and private Secretary of the Governor are native Americans, as are also the judges of the Supreme Court. Senator Stewart is a native of New York, and Senator Jones

HAILS FROM WALES.

And poor, old Ireland is satisfied in having Hon. Wm. Woodburn represent her in the Lower House of Congress. The Secretary of State and Deputy Controller are Americans. The Treasurer, Superintendent of Public Instruction and Surveyor General are foreigners. There are six foreigners in the Senate, only one of whom is a Democrat (Harris), and 13 in the Assembly, nine of whom are Republicans. The officers and attaches of the Senate are all Americans and also Republicans, 16 of whom are native Americans and only one a foreigner, George Dobbs, Assistant Sergeant-at-Arms. Five of these officials were born in the State of Nevada, and three in California. Ireland has four representatives,—one being a Congressman, one a Senator, (Mr. Boyle) and two Assemblymen, (Messrs Craig and Egan,) while England has seven officers in the State Government. Poor little Wales has only one, but he occupies a position only inferior to the Presidency of the United States, Hon. John P. Jones. Nova Scotia, New Brunswick, France and Prussia have one each in this great mass of statesmen. New York has 13 on the list; Maine, 8; Vermont, 5; Massachusetts, 3; Pennsylvania, 5; California holds her own with namely, 8, while Kentucky has 4, and South Carolina 1. The South has nine altogether—6 of whom came from Missouri; Ohio, with her natural fondness for office, has 6; Iowa, Oregon and Utah have one apiece to speak for their constituents. Seventy-two are married, (we trust single men with political ambition will take warning by this,) as there are only 35 bachelors, and these are frequently consoled by the 4 widowers—one of whom is a Congressman, one Controller, one Senator, and an Enrolling Clerk. Illinois claims four out of the 112 officers, while Indiana and Michigan are satisfied with one apiece. This includes all officers from the Governor down to the liberality of our great American Government. H. M.

Excitement in Texas.

Great excitement has been caused in the vicinity of Paris, Texas, by the remarkable recovery of Mr. J. E. Corley, who was so long the victim of heart disease, or, rather his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding it to be a good one, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh 38 pounds. Trial bottle of this great Discovery for Consumption free at S. J. Hodgkinson & Co.'s.

Governor Stevenson in Luck.

Governor Stevenson for several years past has been in a streak of luck. Whatever he touches turns to gold. The latest transmutation in his hands of country rock to gold is the Lady Bryan mine. A discovery in this mine has been made of a four-foot ledge, some of the ore assaying as high as \$100 per ton. Governor Stevenson will mill the ore from this mine, of which he is the principal owner, in the Rock Point mill at Dayton.

The Verdict Unanimous.

W. D. Sult, druggist, Bippus, Ind., testifies "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing." "Abrams Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half dollar a bottle at S. J. AN OLD PIONEER GONE.

Hon. Jerry Schooling's Death—A Sketch of His Life.

Hon. Jerry Schooling is no more. Last Wednesday night at his rooms in Carson City he was stricken with a severe attack of apoplexy. He remained unconscious through yesterday and breathed his last yesterday afternoon at 4:05 o'clock. The deceased was born in Missouri in May 1832, hence at the time of his death was 54 years, nine months and 23 days old. Jerry Schooling was one of the best-known men in Nevada, and an old pioneer of Washoe county. He came to Washoe City in the year 1862. With his partner, Joseph E. Jones now of this place, in that year he engaged in the blacksmith trade. He lived at Washoe until 1869, when with thousands of others attracted thither by the prospects of a suddenly to be acquired fortune, he moved to White Pine. About a year later, in 1870, he was named from that county to be the nominee on the Democratic ticket for State Treasurer. In the canvass he was victorious over his opponent, Hon. Len Wines, the present Sergeant-at-Arms of the Senate. In 1874 was re-elected, this time over the present incumbent of the office, the Hon. George Tufts. On his retirement from the office of Treasurer he located in Reno. In 1880, over his opponent Dr. A. Dawson, he was elected to the State Senate, in which position he served until 1884. He was the unanimous choice of the Democratic convention at Elko last fall for the position of State Treasurer, but with the rest of his party suffered defeat, his opponent being Mr. Tufts. The Democratic party still recognizing his merits as a public officer and his past services to the party, in December last he was appointed Treasurer of the U. S. Mint at Carson. In this position he served until his death. About five years ago he was engaged in the mercantile business here, Gallatin & Folsom succeeding him in 1883. In the years 1884 and '85 he was interested with Captain C. A. Bragg in a saw-mill at Schooling, on the line of the Nevada & California Railroad. He was a member of the Masonic Order in good standing. He leaves a wife and two daughters, Miss Hattie about 21 years of age and Miss Clara about 17 years. The family, including the wife and two daughters, now reside in San Francisco.

In both official and private life the deceased was known as "Honest Jerry Schooling." Never man whispered aught against his integrity. He was companionable and agreeable; he was kind-hearted and charitable of others' faults; he loved his family and no sacrifice was too great for him to make for them; he was esteemed by all of his fellow men as a man of many virtues.

THE BEST

Hair restorative in the world is HALL'S HAIR RENEWER. It cures all diseases of the scalp, and stimulates the hair glands to healthful action. It stops the falling of the hair; prevents its turning gray; cures baldness, and restores youthful color and freshness of appearance to heads already white with age. The following are a few illustrations of what is done by

HALL'S

Vegetable Sicilian

HAIR RENEWER:

Mrs. HUNSBERRY, 344 Franklin Ave., Brooklyn, N. Y., after a severe attack of erysipelas in the head, found her hair—already gray—falling off so rapidly that she soon became quite bald. One bottle of HALL'S HAIR RENEWER brought it back as soft, brown and thick as when she was a girl.

Mr. KEELING, an old farmer, near Warsaw, Ind., had scarcely any hair left, and what little there was of it had become nearly white. One bottle of HALL'S HAIR RENEWER stopped its falling out, and gave him a thick, luxuriant head of hair, as brown and fresh as he ever had.

Mrs. A. T. WALL, Greenfield, Cheshire, Eng., writes: "I have found the greatest benefit from the use of HALL'S HAIR RENEWER. It has restored my hair, which was rapidly falling out, and returned its original color."

Dr. EMIL REIP, Detroit, Mich., certifies that "HALL'S HAIR RENEWER is excellent for hair growing, and gives back the natural color to faded and gray hair."

Mrs. S. E. ELLIOTT, Glenville, W. Va., says: "One bottle of HALL'S HAIR RENEWER restored my hair to its natural, youthful color."

No injurious substances enter into the composition of HALL'S HAIR RENEWER, and it is not a dye. Its vegetable ingredients render it in the highest degree beneficial to the scalp as a preventive of disease. Its effects are natural and lasting, and it does not make the hair dry and brashy, like the so-called restoratives compounded with alcohol.

Buckingham's Dye

FOR THE

WHISKERS

Is, in four respects, superior to all others. 1st—It will produce a rich, natural color, brown or black, as desired.

2d—The color so produced is permanent, cannot be washed off, and will not soil anything with which it comes in contact.

3d—It is a single preparation, and more convenient of application than any other hair or whisker dye.

4th—It contains no deleterious ingredients, as do many preparations offered for like use.

If there are any boys or girls in your house, will you not try a number, or try it for a year and see if it isn't just the element you need in the household? The "London Times" has said, "We have no other read it this side." Here are some leading features of

ST. NICHOLAS

War Stories for Boys and Girls. General Bude u, chief-of-staff, biographer and confidential friend of General Grant, and one of the ablest and most popular of living military writers, will contribute a number of papers, describing in clear and vivid style some of the leading battles of the civil war. They will be panoramic descriptions of single combats or short campaigns, presenting a sort of literary picture gallery of the grand and heroic contest in which the parents of many a boy and girl to-day took part.

The Serial Stories include "Juan and Juanita," an admirably written story of Mexican life, by Frances Courtenay Baylor, author of "On Both Sides," and "Jenny's Boarding House," by James Otis, a story of life in a great city.

Short Articles, instructive and entertaining, will abound. Among these are: "How a great Panoramist is Made," by Theodore R. Davis, with profuse illustrations; "Winning a Commission (Naval Academy)," and "Boring for Oil," and "Among the Gas Wells," with a number of striking pictures.

Child Sketches from George Eliot, by Julia Magruder; "Victor Hugo's Tales to his Grandchildren," recounted by Brander Matthews; "Hastings," by T. T. How a Detective Got Left.

"Did I ever consult a clairvoyant for information?" repeated a detective, yesterday, as he flushed up and looked foolish over the question.

"Come, answer."

"Well, once upon a time I did, and I don't mind telling you that I made a fool of myself, not by consulting her, but by refusing to heed her information. This statement probably astonishes you, and I will, therefore, explain. Do you remember when Preston's bank was robbed?"

"Yes—a good many years ago."

"So it was, and I had been detailed on the detective service about a fortnight. Naturally I wanted to make a strike. My wife realized it, and she put me up to see a clairvoyant. I thought it a silly thing to do, and one night I slipped off like a criminal, and dodged into the office of a leading female astrologist, and planked down a dollar. I hadn't the faintest hope of securing any information of value, and, therefore, her very first words were a stunner. She said:—

"You are looking for criminals, and I will help you to capture three of them this very night!"

"If you please," I modestly replied.

"At eleven o'clock to-night," she continued, "men will set out to rob a bank. They are now consulting in a room above it. They have all their tools in the room, and they have placed blankets to the windows to hide their light. If you go at once and get help you can capture them."

"But where is it?"

"Let me see. The building is rather old. It is on a corner. A stairway leads up from a side street. Street-cars pass the door. It is a mile or more from this house."

"I questioned her for ten minutes, but she could give me no closer information. For a time I thought there might be something in it, but after getting out doors I kicked myself for an idiot. I knew all the banks in town, but I could think of only one which bore this description. Suppose I started out to prove her words true? I should be obliged to summon help, and what would my same man reply, when I told him that my information came from a clairvoyant? I went down to headquarters, found everything quiet, and went home and called my wife a noodle-head, and crept off to bed.

Next morning, as I went down town, the bank was in possession of the police. A hole had been cut through the floor of the room over the vault, the brick of the vault roof removed, and the robbers had descended and made their haul, departing some time before daylight. You can't imagine my feelings, no matter how hard you try. I had been swindled at both ends of the route."
